

## QUALITY

Brand Energy & Infrastructure Services is committed to providing defect-free products and services that exceed the expectations of our customers and industry. We will maintain a Quality Management System that ensures these results.

### Our Company is committed to:

Enabling the production of quality products and the delivery of quality services by providing employees with the necessary resources, processes, support and training.

Aligning ourselves with and regularly evaluating suppliers and employees based on their ability and commitment to fulfilling our quality expectations.

Empowering all employees to provide quality products and services and to improve the quality of their daily deliverables to customers.

Measuring our progress and achievements in providing quality products and services, including soliciting feedback from customers, employees and industry, and using it to affect positive change.

Improving our Quality Management System continuously to maintain industry-leading performance.
